• Novo Hamburgo, Rio Grande do Sul, Brazil

Summary

Experienced Full Stack Developer with a diversified skill set covering front end, back end, and mobile development. My expertise includes building web and mobile applications using Svelte, React.js, Vue.js, PHP (Laravel, CodeIgniter), Golang, Flutter and automating processes with Python and ShellScript. A strong foundation in both SQL and NoSQL databases underscores my ability to optimize data performance. As a self-taught developer passionate about technology, I am committed to continuous learning and delivering high-quality work.

Skills

Full-stack Development • React.js • Svelte • Vue.js • PHP • Laravel • CodeIgniter • Golang • Kafka • RabbitMQ • API Development • Mobile Development • Flutter • Algorithms • Data Structures • Linux • Shell Script • Docker • Docker Swarm • Kubernetes • AWS • Azure • GCP • SQL • MySQL • PostgresSQL • NoSQL • MongoDB • Cassandra • Requirements Gathering • Scrum

Strengths

Experienced Full-stack Development
Proficient in full-stack development, encompassing both front and back-end technologies, database management, API development, and creating engaging user interfaces.

Efficient Problem Solver
Proficient in identifying inefficiencies and bottlenecks within systems and processes, I excel in devising and implementing optimized solutions to enhance performance and productivity.

Passionate about Technology
Driven by my passion for technology and my innate curiosity, I am a self-taught developer committed to continuous learning and growth. With an eye for detail and a dedication to excellence, I consistently deliver high-quality work that exceeds expectations.

Experience

Delta Global

Full-stack Developer Intermediate   09/2023 - Present

Full-stack Developer Intermediate

- Engaged in software development, handling both front-end and back-end system design, coding, testing, and deployment.
- Implemented efficient algorithms and data structures to enhance software performance.
- Played a crucial role in architectural discussions, proposing innovative solutions to boost system efficiency.
- Ensured the development of reliable software by collaborating closely with cross-functional teams.
- Kept abreast of industry trends to incorporate best practices and new technologies, improving development processes.

Messem Investimentos AI

Full-stack Developer Intermediate   01/2023 - 08/2023

Full-stack Developer Intermediate

- Collaborated with a team of software developers to design, develop, and maintain innovative software solutions.
- Participated in all phases of the software development life cycle, including requirements gathering, system design, coding, testing, and deployment.
- Implemented efficient algorithms and data structures to optimize software performance and scalability.
- Conducted code reviews, provided constructive feedback, and collaborated with team members to ensure high-quality code.
- Actively contributed to architectural discussions and proposed solutions to improve overall system design and efficiency.
- Collaborated with cross-functional teams, to deliver reliable and user-friendly software solutions.
- Researched and implemented industry best practices and emerging technologies to enhance software development processes.
- Assisted in troubleshooting and resolving software defects, addressing customer issues promptly and effectively.
- I documented software features, functionalities, and technical specifications to facilitate knowledge transfer and future maintenance
- Successfully delivered features within agreed-upon timelines, meeting or exceeding client expectations.
- Implemented performance enhancements that resulted in improved system response time and increased overall customer satisfaction.

Experience

Brudam - Software TMS para sua transportadora

Full-stack Developer   06/2020 - 12/2022

Full-stack Developer Junior

- Developed and maintained Brudam's flagship product, a Transportation Management System (TMS), ensuring its efficiency, reliability, and scalability.
- Utilized Flutter framework to create innovative and user-friendly mobile applications for third-party clients, meeting their specific requirements and exceeding expectations.
- Successfully delivered complex projects on time and within budget, earning positive feedback from clients.
- Developed a robust TMS system that resulted in increased operational efficiency and cost savings for the company.
- Received recognition for exceptional problem-solving abilities, effectively identifying and resolving technical challenges.
- Actively stayed up-to-date with the latest industry trends and technologies, continuously improving skills and knowledge.
