WORK EXPERIENCE

Delta Global — **Porto Alegre, Rio Grande do Sul, Brazil**
Full Stack Developer Intermediate — *Sep 2023 - Jun 2025*

- Involved in Full Stack development on 5 simultaneous products, including 2 React applications and a microservices migration from Node.js to Golang.
- Participated in architecture discussions, proposing solutions that increased system efficiency, including API Gateway and gRPC design for communication between services.
- I gained extensive experience with architecture in projects with Golang, RabbitMQ, Redis and Elasticsearch for metrics and messages.
- Contributed to the development of internal React + TypeScript component libraries.
- I made use of efficient algorithms and data structures that reduced page loading times by 70%.
- Optimized database queries to reduce response times by 50%.

Messem Investments — **Porto Alegre, Rio Grande do Sul, Brazil**
Full Stack Developer Intermediate — *Jan 2023 - Aug 2023*

- Led the refactoring of a legacy PHP/jQuery application to a modern Laravel + React stack with TypeScript, improving overall system performance and user experience.
- Participei de todas as fases do Ciclo de Vida de Desenvolvimento de Software (SDLC), incluindo levantamento de requisitos, design de sistema, codificação, teste e implantação.
- Developed automation tools, including a Golang script to generate model files for more than 300 database tables, significantly optimizing development work.
- Designed a web scraper and proxy form tool to streamline the processes of receiving and sending data for customer interactions.
- Conducted code reviews with constructive feedback to ensure high quality code and adherence to best practices.
- Implemented efficient algorithms and data structures that reduced page loading times by 80%.

Brudam - Software TMS — **Eldorado do Sul, Rio Grande do Sul, Brazil**
Full Stack Developer — *Jun 2020 - Dec 2022*

- I participated in the development of new features and bug fixes for Brudam's main product, ensuring its efficiency, reliability and scalability.
- Recognized for problem-solving skills, effectively identifying and resolving challenges and bugs in production.
- I contributed as a third-party developer to a client's React + TypeScript web system, delivering new features and bug fixes over 6 months.
- Automated internal tasks by creating Golang scripts, including a web scraper, a commit analysis tool and reporting tools, leading to increased team productivity.
- Led the end-to-end development of a mobile application, successfully delivering a high-quality product that met the client's specific requirements.
